

## AK 897 EASY CAST TEXTURE MEDIUM

The Easy Cast texture medium is the ideal product to create the typical cast texture on cast parts from armoured vehicles. This product is acrylic based and this means it's non-toxic and dries quite fast. The best way to apply it is with an old brush.

The tools can be easily cleaned with water or acrylic thinners like AK 712.

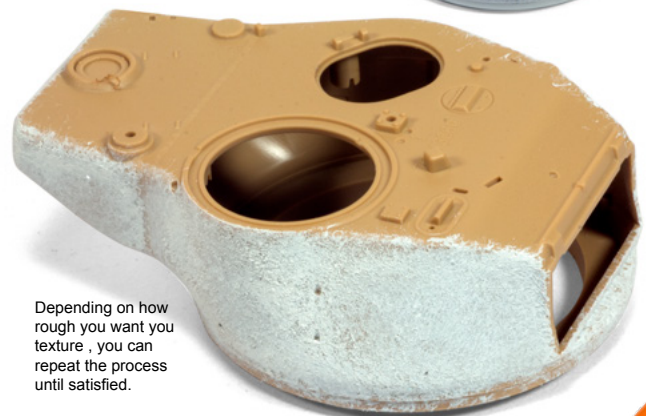

Cast parts like turrets often lack the typical cast texture found on armoured vehicles. The Easy cast Texture Medium is the perfect product to replicate the missing cast texture.

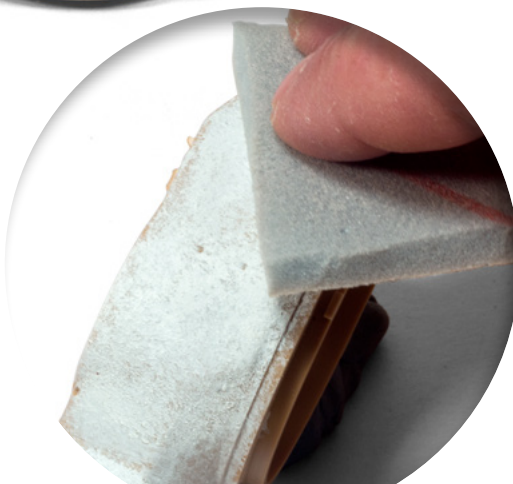

The Easy cast Texture medium is ready to use and comes in a neutral white color.

Apply the cast texture medium straight from the jar with a dabbing motion with an old brush.

Depending on how rough you want your texture, you can repeat the process until satisfied.

The Easy cast Texture medium dries in minutes, when it's too rough you can smooth the surface with a fine grid sanding pad or sand paper.

Tools can be easily cleaned in water or with acrylic thinners.
